SHOW FLOOR INFO & FEATURES

Celebrating 30 Years @ The Buildings Show

Experience the full magnitude of our building design, construction and property management industries at one single event, The Buildings Show. New this year, STONEX Canada, World of Concrete Toronto Pavilion and HomeBuilder & Renovator Expo relocate and grow in the North Building of the Metro Toronto Convention Centre and Construct Canada and PM Expo maintain their position and expand in the South Building.

With the addition of STONEX Canada, dedicated to stone, terrazzo and ceramic innovations, we have enhanced the Show to provide you with an unparalleled opportunity to see first-hand a complete overview of the market!

Here's what to expect:

- Discover new products and inspiring trends.
- · Connect with key industry suppliers, experts and peers.
- Learn valuable insights affecting tomorrow's built environment.
- · Lead your team effectively through educational programming tailored to your interests

Transform. Build. Innovate.

Take advantage of our vast learning and networking opportunities by planning your time online,

- · Our expanded show floors now offer more live product demonstrations, interactive exhibits and dynamic networking spaces.
- \cdot Expert-led seminars, panels and roundtables are strategically located in both the North and South buildings to maximize your time and experience.

Any Questions? Visit thebuildingsshow.com Call (416) 512-0203

#TheBuildingsShow

One Central Location. Two Dynamic Show Floors!

Featured Areas on the Show Floor

- Carpenters in Action
- Chargeant Power Up Stations
- Concrete Canoe Innovation Showcase
- Concrete Decor LIVE!
- Interior and Exterior Systems at its Best
- MLSE Raptors Gondola Box Giveaway
- · North Demo Area Presented by Derusha Procore Tech Pavilion
- RYCOM Smart Tech Pavilion
- Rymar Golf Lounge
- Safetech Environmental Lounge

Featured Exhibits New to the Show

- Abaco Machines USA
- Assimagra Portuguese Mineral Resources
- · Ferrari & Cigarini
- Van Khoa White Marble Company

Find out more about participating exhibitors in the Online Exhibitor Directory.

TCA Annual Christmas Luncheon

Learn. Lead. Empower.

Staying ahead of the competition in a rapidly evolving industry is a challenge. Our expert-led seminars, panels and roundtables provide you with opportunities to expand your knowledge base, prepare yourself to adopt industry best practices and save yourself time and money while earning continuing education credits. Stay current within your industry and be inspired to lead your projects to success!

A portion of the seminar registration fees will go to the Red Door Family Shelter to provide services for families and individuals who need safe and supportive emergency shelter.

Recommended Roundtables, Summits & Keynotes

International Architectural Roundtable - Architectural Design: Shaping the Imagination

SS101 · Wed. Nov. 28 · 8 am - 10 am

\$105 before Nov. 9/\$115 after Nov. 9 · South Building

What is the future of architectural design? What are the guiding principles that are shifting design-thinking? Join leading international architects as they discuss the inspiration and influences of their latest projects.

Ask the Experts Breakfast: A Discussion on Concrete

SS105 & SS106 · Wed. Nov. 28 & Thurs. Nov. 29 · 7 am - 8:30 am \$105 before Nov. 9/\$115 after Nov. 9 · South Building

Get answers to your toughest concrete challenges from industry experts in an intimate and open setting. Bring your challenges associated with production, construction, repair, and maintenance on concrete projects. Hosted by BASF Corporation, breakfast is included.

Canada's National Housing Strategy (NHS):

Leading to a New Generation of Sustainable and Accessible Housing (CMHC)

SN108 · Wed. Nov. 28 · 8 am - 12 pm

\$105 before Nov. 9/\$115 after Nov. 9 · North Building

The National Housing Strategy is a 10-year, \$40-billion plan that will give more Canadians a place to call home. Learn how you can be part of delivering on this vision – through financial incentives, research-based insights and advice from experts who have implemented sustainable and accessible housing.

Stone Roundtable: Today's Stone Innovations

WN602 · Wed. Nov. 28 · 10:30 am - 12 pm \$50 before Nov. 9/\$55 after Nov. 9 · North Building

What are the attributes that natural stone provides that makes it the ideal option? How is the industry educating the public and building community? Join industry design and stone professionals as they explore the innovations in materials, manufacturing and installation.

8 am - 10 am

SS101 - International Architectural Roundtable Architectural Design: Shaping the Imagina

Professional Skills, Strategy & Leadership; Project Design, Planning, Delivery, Management & Best Practices

What is the future of architectural design? What are the guiding principles that are shifting design-thinking? How is leading-edge scientific research influencing the built world? Architects are pushing the boundaries of functionality, energy-efficiency and technology—but how do these advancements translate into meaningful architecture? Leading international architects will discuss the inspiration and influences for their latest projects.

9 am - 12 pm

PS105 - Project Management: Power of the Plan

Professional Skills, Strategy & Leadership; Project Design, Planning, Delivery, Management & Best Practices

This workshop presents a simple, easy to understand process for managing small, everyday projects. This is not "Project Management Essentials" or "PM 101." It is simpler than that. This workshop will take participants through a series of ten steps for managing small everyday projects starting with important question "Should I really do this?" all the way through to tips on closing it all down and celebrating at the end. Learn how to run great meetings that people want to attend, how to create a simple schedule and budget, and more. Most importantly, participants will learn the tools needed to deliver their projects on time and on budget.

Bill Richardson, Project Manager Coach, Procept Associates Ltd.

SS102 - Construction Law Update: The Latest Cases **Affecting Your Projects**

Legal, Regulatory & Risk Management

This annual session will cover the key recent legal decisions and legislative changes that will affect how projects are carried out across the construction industry. In this session that you can't afford to miss, panellists will cover new developments in procurement law, dispute resolution, contract notices and limitation periods, and bonding, among other timely topics.

Glenn Ackerley, Partner, Weir Foulds LLP

Sandra Astolfo, Partner, WeirFoulds LLP

Ellie Choi, Vice-President and General Counsel, Chandos Construction Ltd.

Andrew O'Brien, Director - Surety Risk, Travelers Insurance Company of Canada

9 am - 10 am

WN600 - New Installation Handbook for the Canadian Tile & Stone Industry

Legal, Regulatory & Risk Management; Project Design, Planning, Delivery, Management & Best Practices

The Tile, Terrazzo, and Marble Association of Canada (TTMAC) just released the newest issue of the TTMAC Tile Installer Technical Handbook, which is the Canadian version of the National Tile Contractor Association's Reference Manual in the U.S. This seminar will explore some the most important updates and how these will impact the Canadian market as well as will identify the key differences between U.S. and Canadian norms and methodologies, review installation challenges with the newest technologies in the tile industry and the environmental advantages of tile and how tile can contribute to LEED, WELL and Green Globes.

Dale Kempster, Director of the International Technical Network, North America, Schluter Systems (Canada)

WN601 - New Technologies in Digital Templating

Project Design, Planning, Delivery, Management & Best Practices; Smart Buildings, Technologies & Innovations

What are some of the new innovations in the digital templating technology for stone? What can fabricators expect in the next two years? How are the technologies going to meet quality, performance and ease of use of the equipment, make the fabricators job easier and faster, or meet the expectations of the contractor, architects and designers? This session will discuss the new technology and features to help fabricators save time, money or material resources, and to inform the construction and design community of finished product characteristics afforded by the new technologies

Aatif Markar, CEO, Laser Template Inc.

WS400 - Construction Market Outlook: Uncertainty Prevails in a Global Market

International Trade & Business Development: Legal, Regulatory & Risk Management

There is a renewed uncertainty in the global economic market due to tariff wars which influences trade for products and services. In the US, construction activity is relatively strong and the stock market continues to boom. How long can this continue? Globally, what are the impacts of Chinese investment in Africa or Russia energy investments in Europe and China? This session will look at the global economic and construction outlooks to help you understand the global forces that will have an impact on future construction activity

WN606 - Optimizing Ceramics for Specifications in 2019

Smart Buildings, Technologies & Innovations

Consumer trends are vitally important in a design/build climate, especially in booming real estate markets where competition is fierce. Discover the macro trends and learn the broad array of micro tools that creative and product directors employ today to create the most effective and layered looks in any building materials sector. The speaker will provide valuable take-aways as you become a sommelier of tile by learning to distinguish the multiple layers of modern design and production techniques in ceramics.

Ryan Fasan, Creative Development, Bellavita Tile

WS113 - A Guide to the Construction Act of Ontario: Modernizing the Lien Act

Legal, Regulatory & Risk Management; Project Design, Planning, Delivery, Management & Best Practices

The New Construction Act which came into effect on July 1st, 2018, addresses the modernization of the previous Lien Act and introduces several complex issues while introducing a new element to the process, such as adjudication. Learn about the two-part guide developed by the Ontario General Contractors Association (OGCA) which will address these changes and what they mean to General Contractors in

TN600 - Best Practices for Specifications and **Managing Client Expectations for Hard Surface**

Projects Legal, Regulatory & Risk Management; Project Design,

Planning, Delivery, Management & Best Practices Learn the best practices in specifying and selecting the correct hard surface for the job while managing client expectations to reduce dissatisfaction and call backs.

Kazim Kanani, Senior Associate, Specification Specialist, Quandrangle Architects Limited

TN601 - Working with Tile: Technical Attributes of Porcelain Tile & The Latest Trends

Project Design, Planning, Delivery, Management & Best Practices

This session will address the latest trends and technical information in porcelain tile. The speaker will address the definitions of thru-body, colour-body, and glazed porcelain tiles with emphasis on technical and aesthetic qualities. Learn about the latest design trends including the latest tiles from Italy such as mosaic tiles, large format tiles, thin tiles, and technical porcelains. The speaker will review the manufacturing and installation methods during the presentation.

Glen Brewer, President, Midgley Tecnica

10:30 am - 12 pm

TN602 - Tile and Stone Maintenance and Restoration Solutions

Project Design, Planning, Delivery, Management & Best Practices

This presentation outlines the common issues and solutions for properly caring and maintaining natural stones and manufactured tile. The speaker will discuss restoration and repairs as well as post installation repair solutions. Learn how to avoid costly common errors that will save you money.

Arnie Majdall, Sales Director, Thor & Partners

Bill Wright, Training and Education, Stone Tile Internationa

Chargeant Power Up Stations

"Power up on the go" with Chargeant portable phone chargers available in both the North and South Buildings.

The speaker will discuss the increased need for an effective system, oriented applications, and proper movement joint placement. Learn about the differences between airborne noise and impact sounds and how it's measured; what STC and IIC values mean; the most common building codes related to multi-family construction and how to specify sound attenuation membranes.

Geoff Duck, Nuheat - Sales Manager, Canada, US West, nVent Thermal Canada Ltd.

TS103 - Ontario Building Code Update: Three of the Most Recent Changes You Need to Know

Legal, Regulatory & Risk Management

The changes to the Ontario Building Code arising from Ontario Regulation 139/17 came into effect on July 1, 2017 and January 1, 2018. This seminar will be of particular interest to designers and builders as topics cover what is a "house" as defined in the Ontario Building Code, what electric vehicle charging facilities are required in new buildings and more.

Alek Antoniuk, Consulting Architect, CodeNews Consulting Corp.

Concrete Canoe Innovation Showcase

From prototypes to final outcomes, explore the Concrete Canoe Innovation Showcase created by the civil engineering teams from Ryerson University and the University of Toronto.

TS135 - Leaner, Greener, Larger, Lighter: Thin Tile Systems and the Building Envelope

Building Envelope Solutions

Thin porcelain tiles are light products whose production requires less materials and energy. This discussion will cove thin body porcelain tile, manufacturing techniques to reduce and recycle materials, benefits and use of thin body tile, lightweight mortar technology, thixotropic properties, non-sag, non-slip, thin body tile and lightweight mortar technology and installation techniques to install large format thin tiles on walls.

Pierre Hebert, Manager of Technical Services, MAPEI 2:30 pm - 4 pm

TS403 - How to Succeed in Latin American Markets

International Trade & Business Development; Professional Skills, Strategy & Leadership

With a greater emphasis on exports beyond the USA, how can Canadian companies find market opportunities or grow exports to Latin American countries? How can you take advantage of International MOU (Memorandum of Understanding), trade agreements or existing Canadian relationships? This session will cover the experiences and best practices when working in Latin American markets including construction opportunities, logistics for market entry, and advantages of Canadian companies.

Rodrigo Contreras, Trade and Investment Commissioner, Trade Commission of Mexico -Toronto

Paulo Orlandi, Trade Commissioner, The Government of Canada Trade Office - Brazil

Paola Saad, President,

Brazil-Canada Chamber of Commerce
